Cathedral concert given by Benton Community High School was approved with some parishioner's chaperons.

Decided not to have a church walk this year. It was well attended in the first year, but tapered off last year.

Lawn Care options were discussed. Approved the $574.59. quote. Did not think we needed the option for grub control. We were not sure if we needed the fertilizer but assumed it's in the package.

Air conditioning proposal. We want to go ahead with replacing the air conditioning that is 25 years old. The finance committee were also discussing which option to take.

Discussed decorating church for Christmas. Before the concert we can decorate with greenery and wreaths. The trees and nativity will be done just before Christmas.
